

## Acceptable, Accessible Services

### Activity – Marginalised Groups

Think about your organisation or your practice, and consider how well equipped you are to respond to the needs of:

- Looked after children (LAC) and care leavers
- Unaccompanied asylum seekers who are minors
- Young people who are carers
- Children and teenagers living in poverty and neighbourhoods where there is evidence of health inequalities
- Homeless young people
- Teenage parents
- Young people who are in the youth justice system
- Young people from black and minority ethnic communities and travelling communities
- Young people with a physical and or learning disability
- Lesbian, gay, bisexual and transgender young people

How would these young people know they are welcome? How are you actively encouraging these young people to access your services?

Enter your responses in the spaces below.

1. How would these young people know they are welcome?

2. How are you actively encouraging these young people to access your services?
